The process starts with the hotel selecting the CHTA or member product or service it wishes to pay for with room-nights. The minimum transaction is \$1,000 (a member whose annual dues are \$250 can sign up for four year's membership to reach the \$1,000). One member has used over \$30,000 of inventory to pay for CHTA goods and services.

SkyAuction.com then researches the hotel's value through the hotel's own website and various other market barometers, such as Expedia, Orbitz, etc and arrives at a nightly value. The hotel agrees to the number of nights to be auctioned by SkyAuction (all blackout dates are allowed). The CHTA product or service is delivered; SkyAuction.com collects the room-nights and pays CHTA the full value of the product or service.

Why should a CHTA Member use the SkyAuction.com 'Room Exchange' Program?

- Pay for products and services by converting unsold room-nights into cash.
- SkyAuction members will spend cash at the hotel during their stay (F&B, activities, etc.).
- SkyAuction will market your hotel to their membership on its own "mini" website, plus a click-through to its website, creating incremental traffic for the hotel.
- On-average 7.9 consumers bid for Caribbean product; the 7 that do not win the bid still have a desire to stay at that hotel – they were not bidding for something they didn't want!
- SkyAuction has a 70% repeat factor, which means repeat guests for you
